

Cosmetics & Eyebrows Atelier

MICROBLADING & MICROSHADING AFTERCARE

Congratulations on taking the first step on improving your natural features starting with your eyebrows. Now that the provider has completed your service, it is now your responsibility to make sure you follow these aftercare instructions. These are to help you take care of your eyebrows after your Microblading and/or Microshading services and between touch-ups.

WHAT TO KNOW AND WHAT TO DO

Do not wet the eyebrow area for 7 to 10 days or until the itching, scabbing, and peeling have stopped.

When washing your face, avoid the eyebrow area. Do not apply soaps or tonics, serums, alcohol, witch hazel, or any skincare product that wasn't recommended to you by the microblading artist.

Avoid saunas, tanning, swimming, excessive smoking, sweating through physical activities, and extreme heat until the area is done scabbing and healed.

Do not scratch or rub the eyebrow area.

Crusts and scabbing will occur. Don't pinch it.

Do not apply makeup to the area.

Do not allow hair to touch your brows area. Hair carries bacteria.

Apply the aftercare ointment provided or recommended by the service provider during your appointment 2 times a day, morning, and evening.

Keep in mind that pigments are still settling in the superficial cuts of the skin and will fade over time due to the healing process.

After your skin is completely healed from microblading/microshading, invest in taking care of your skin. Apply sunscreen to the area to help prevent rapid discoloration.

Microblading is a semi-permanent cosmetic procedure. It will fade. It can happen a week after your service or months after your service. It all depends on your skin and following the aftercare instructions. Touch-ups are recommended. Fading can also occur at a faster rate than others, depending on skin type, lifestyle, medications, and/or aftercare.

If you notice that your skin is having a reaction OTHER THAN scabbing or peeling, CONTACT your microblading artist IMMEDIATELY. If you do not get a response within 30 minutes, contact or go see your MEDICAL PROFESSIONAL IMMEDIATELY. Please do not wait.

Please know that no cosmetic service treatment is 100% guaranteed to work. Always contact your provider for more services that may be a better alternative for your eyebrows.

PLEASE NOTE: All cosmetic procedures, Microblading and/or Microshading are final.

There are no refunds, credits or service changes for cosmetics procedures.
